

Triangles using Bottom and Center Align

Create a three point Triangle area. Position and resize triangle designs using the Alignment tools.

1. Select Design

- Select **File** tab.

- Press **Design**.

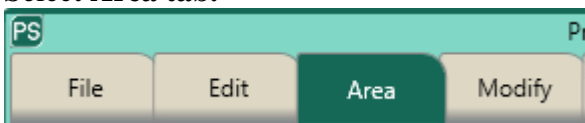

- Press **Open**.
- Select **Designs/HQ Designs/Triangles/Leaves and Scroll**

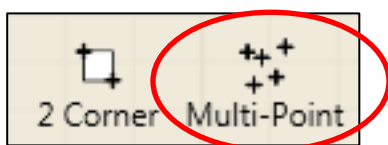

2. Create an Area

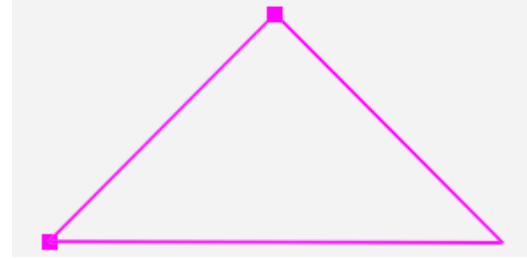

- Select **Area** tab.

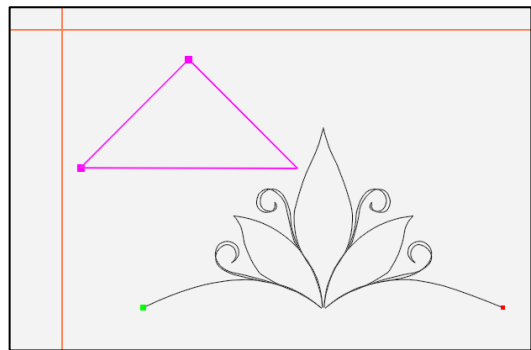

- Move machine to a corner of the triangle on the quilt.
- Press **Multi-Point**.

- Continue moving the machine and pressing **Multi-Point** at the other two corners of the triangle quilt block.
 There should be three points for the area.

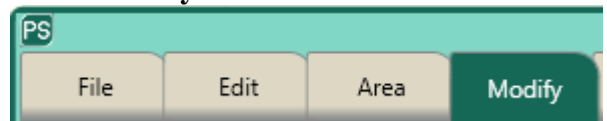

- The area now appears as a pink triangle.
- Press **Refresh** in the status bar at the bottom of the screen. The area, design and crosshairs will be visible in the workspace.

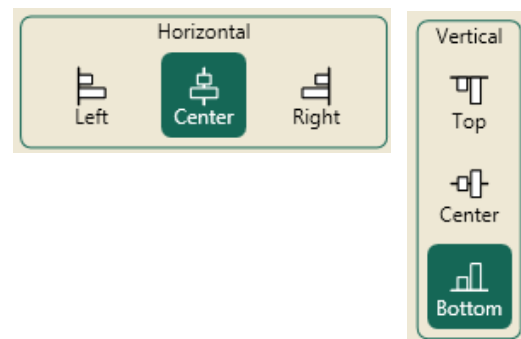

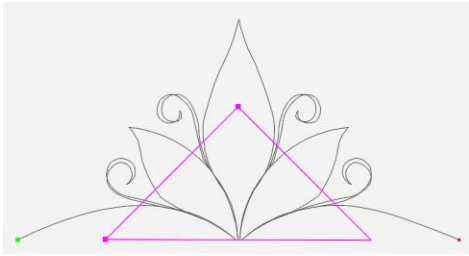

3. Align Design

- Select **Modify** tab.

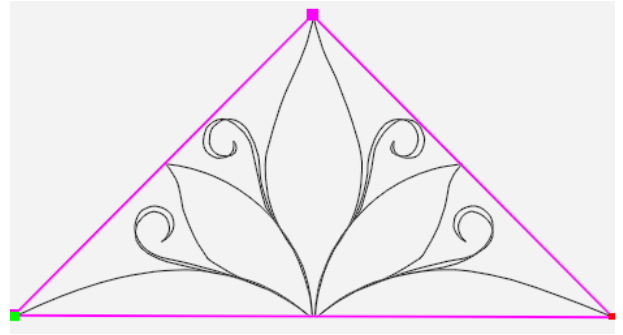

- Press **Align**.
- Press **Horizontal Center** and **Vertical Bottom**.

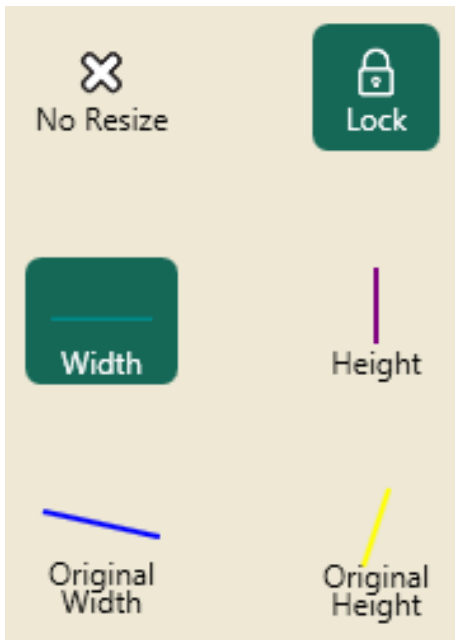

- The design is now aligned to the center and bottom of the triangle.

4. Resize to Fit Area

- Press **Resize** while in the **Modify** tab.
- Press **Lock**. This will resize the height and width at the same ratio keeping the design in proportion.

Hint: you may need to turn off the Lock button and resize the horizontal and vertical aspects individually.

- Press the minus button to reduce the size of the design to fit within the area triangle.
